

Physician Check List

SMH Hospitalist Pilot

- What is it and what to expect?
- How it looks, where do I find this?
- Pilot Time Frame

What is this & What to expect?

- The checklist is a tool that uses rules to evaluate patients records looking at specific criteria.
- It is use to remind clinicians to complete certain documentation in the system.
- Its simply to help clinicians keep track of what documentation needs to be recorded for a patient and when.
- At this time documentation is specific to Admission and Discharge tasks.

What is this & What to expect?

- Tasks get categorized by their status.
- Statues are time driven from time of admission.
- Or Expected Discharge date for discharge related tasks.

 = Complete

 = Incomplete, but not due soon

 = Due soon

 = Overdue

How it looks, where do I find this?

- The checklist can be found on the sidebar index report.

How it looks, where do I find this?

- We have also targeted specific workflows showing tasks related to your current work process. For instance a custom sidebar will now popup when you enter the admission navigator or Discharge navigator displaying those specific items.

How it looks, where do I find this?
